## **Project XERO CMS**

### **· What is ProjectXERO?**

ProjectXERO is a powerfull, free, fast and secure content management system. It uses an sql database to keep and display the information. It is released under the Gnu GPL 2 Licence.

### **· Why should i use PX and not 'x' CMS?**

It's your choice really. You may or not use PX. If you do, you will find out the reason...
